| 9:15 - 10:30 am| • Workshop Introduction (Gary Felton and Stephanie Lansing – University of Maryland)  
• Anaerobic Digesters: Where We Are Today (Chris Voell - AgSTAR)  
• Digester System in the Northeast – Successful Case Studies (Curt Gooch – Cornell University) |
| 10:30 - 10:45 am| Break                                                                                      |
| 10:45am – 12:15 pm| • Federal Biogas Policy (Patrick Serfass – American Biogas Council)  
• Financial Reality of Digesters and National Programs (Jeff Porter – USDA NRCS)  
• Opportunities for Growth and Financial Incentives in Northeast/Mid-Atlantic (Gary Felton – University of Maryland) |
| 12:15 - 1:30 pm| Lunch                                                                                      |
| 1:30 – 3:00 pm| • Food Waste and Co-substrates, landfill diversion (Stephanie Lansing – University of Maryland)  
• Use of Biogas: scrubbing, RNG, GenSets & Use of Excess Heat (Curt Gooch – Cornell University)  
• Antibiotics Resistance, Manure Technologies, and Value-Added Treatment (Stephanie Lansing – University of Maryland and David Lansing – UMBC) |
| 3:00 – 4:30 pm| • Discussion Panel (Kilby Farm, BTS, Reinford Farm, PFED)  
• Closing remarks and Workshop Wrap Up (Gary Felton and Stephanie Lansing – University of Maryland) |

Farmer’s Guide to Dairy-Derived Biogas Production, Treatment and Utilization

Date: October 1, 2018
Authors: Tim Shelford, Curt Gooch, Maggie Hines, Abhinav Choudhury, Gary Felton, Stephanie Lansing
Project: NE SARE Project Number – LNE15-341

The Guide will provide farmers with information on:
(1) factors affecting biogas production and composition,
(2) description and treatment capabilities for different types of biogas scrubbing systems, and
(3) managing and operating guidelines for engine generator sets with different scrubber systems.
Anaerobic Digestion Survey

• We are conducting a research study on anaerobic digestion adoption in the U.S. The purpose of the research is to better understand financial and policy barriers to anaerobic digestion implementation in the US. The survey will take approximately 15 minutes to complete.

• We appreciate your time and consideration in completing the survey, and thank you for participating in the study. You can contact the Principal Investigator at any time with questions, Dr. Stephanie Lansing (slansing@umd.edu).

• Please copy the link below to go to the survey website into your Internet browser.
